Dear Parents & Guardians of Middle Schoolers,

Please find below a list of color-coded supplies to help your child stay organized throughout the 2021-2022 school year. Studies show that color-coding increases your child's success in maintaining organization throughout the school year, especially because of the increase of movement in middle school.

Starting this school year, we are requiring that each family purchase color-specific notebooks and folders for their students. At the beginning of the school year, a school-wide take home folder and agenda will be provided to your student. This too will optimize success and organization. On that first day of school, we will assist the students in organizing their supplies in their desks and lockers.

Thank you in advance!
